# MODERN INSURANCE PROBLEMS

THE ANNALS for March, 1917

"It is a notable contribution to the literature of the business, in that it deals with many phases of insurance that are live topics at the present time. There is no doubt but that it will prove of great interest to students of the business and that it will be widely read in insurance circles."

**Life Insurance Courant, April, 5, 1917.**

---

"Dr. S. S. Huebner and his associate editors are to be congratulated on the production of this volume which, when its value and interest becomes known, will gain honored place in every library of insurance literature"

**Life Insurance Independent, March 1917.**

---

"These are all practical subjects and were treated by experts, making the volume of unusual interest and value in insurance circles. It was edited by Dr. Solomon S. Huebner, professor of insurance in the Wharton School of the University of Pennsylvania. The student of insurance will find it a valuable addition to his library."

**The Indicator, March, 20, 1917.**
